

-Wahby Wadia:

The symmetric and unitary groups 3

-A. Faessler, G. Lalazissis, U. Straub, H. Valesquez and Z. Zhang:

The quark model, the H-dibaryon and hypernuclei. 11

-K.M. Hanna, M.E. Buzaladze, V .R. Garsevanishvili, V .A. Matveev and Z.R. Menteshashvili:

Multiquark cluster model at large Bjorken scaling variable. 25

-Ahmed-Abouelsaood:

Quadratic chiral boson lagrangians 37

-Mohamed Assad Abdel-Raouf:

Theory of four-body systems 43

-Khaled E. Negm and Mohamed Assad Abdel-Raouf:

Investigation of protonium formation and annihilation in PP-in teraction 51

-M.M. Mustafa, Elbadry M. Zahran and Ragaa A. Osman:

Pion-nucleon coupling constant and low energy deuteron properties 56

-M. El-Nadi, M.S. El-Nagdy and A.M. Abd-Alla:

Interaction of ultrarelativistic oxygen nuclei in emulsion 61

-M. El-Nadi and KH. Waged:

Analysis of particle production in hadron-nucleus collisions at ultrarelativistic energies 84

-M. El-Nadi and L.I. Abo-Salem:

Rapidity distributions of PP , PA and AB at high energies. 99

-El-Nadi and L.I. Abo-Salem:

Inclusive spectra of hadron nucleon collision at high energies 114

-M.M. Sherif, KH. Waged and L.I. Abo-Salem:

Study of the angular distribution of fragments produced in relativistic heavy ion collisions. 131

-M. El-Nadi, M.M. Sherif, M.S. El-Nagdy, A. Abd El-Salem, M.N. Yasin, M.A. Jilany and A. Bakr:

Some characteristics of multiple helium fragments produced in heavy ion collisions at Dubna energy 145

-S. El-Sharkawy:

Inelastic interactions of ${}^6\text{Li}$, ${}^{24}\text{Mg}$ and ${}^{28}\text{Si}$ - nuclei in emulsion at 4.5 GeV / c incident momentum. 165

-I.M.A. Tag Eldin, S.S.A. Hassan, M. Y .M. Hassan, M.N .H. Comsan and A.B. Mayhoub:

Elastic scattering of ${}^{\text{K}}\text{:t}$ - ${}^{12}\text{C}$ at $P_{\text{lab}} = 800$ MeV / c using Glauber theory 173

-E.H. Esmael:

A study of the n-n scattering amplitude for hadron scattering by ${}^4\text{He}$ 182

-Galal S. Hasan:

Excitation functions of some nucleus- nucleus collisions using the proximity potential 188

-M. Abd-Alla, H.S. Ragab and M. Y .M. Hassan:

Thermal properties of nuclear and neutron matter with a generalized Seyler-Blanchard potential 200

-M. Abd-All:

The temperature effect on the level density parameter 207

-Hussein Mohamed Sallam and Mohamed Assad Abdel- Raouf:

Application of the refined resonating group method to the ${}^4\text{He}(d, \gamma){}^6\text{Li}$ above 4 MeV and ${}^3\text{He}({}^3\text{H}, \gamma){}^6\text{Li}$ 213

-M.I. El-Zaiki and H.E. Abd El-Baeth:

Yrast bands in ${}^{162}, {}^{164}, {}^{166}, {}^{168}\text{Hf}$ and characterization of negative parity sequences in ${}^{168}\text{Hf}$ 221

-I. Popescu, T. Badica, E. Dragulescu and V. Cojocaru:

Low-lying levels of odd ${}^{69}\text{As}$ nucleus in the particle-quadrupole-phonon model (PTQM) 240
