

1. Introduction.	I
2. Experimental Facilities.	1
2.1 Detector Material	1
2.2 Irradiation Techniques	2
2.3 Etching Technique and Track Counting	4
3. Characteristics of the Electrochemical Etching for Alpha Energy Discrimination.	6
3.1 Alpha Energy Calibration	6
3.2 Optimization of the Etching Technique for Alpha Energy Discrimination	14
3.3 The Sparkable Region Phenomena	16
3.4 The Optimum Sparkable Depth	20
4. Passive Radon Dosimetry in Egyptian Dwellings.	22
4.1 Radon Calibration	22
4.2 Field Application	22
5. Conclusion.	31
6. References.	33
