

Inhaltsverzeichnis

Vorwort

R. Waser " 1 -2

A Basics

A1 Dielectrics and Optics *S. Hoffmann-Eifelt* .A 1 1 -34

A2 Ferroelectrics *D Richter* A2.1 -34

A3 Electronic Properties and Quantum Effects *K Sturm* A3.1 -28

A4 Magnetoelectronics: Exchange Anisotropy. Interlayer Exchange Coupling, GMR. TMR and Current-induced Magnetic switching *D. Bürgler, P Grünberg* A4.1 -32

A5 The Molecular Basis of Electrical Excitability of Nerve Cells *U. Kaupp* A5.1 -22

A6 Circuit and System Design *M. Dolle*. A6.1 -24

B Technology

B1 Deposition Methods *P. Ehrhalt* B1.1 -36

B2 Lithography *J Moers*. B2.1 -24

B3 Non-Lithographic Patterning *B. Spangenberg*
Etch Techniques *S Schneider*
Nanoimprint-Lithographie M. Bender.B3.1 -30

B4 Analytical Methods *O. Seeck* B4.1 -28

B5 scanning Probe Microscopy *P. Ebel, K. Szot* B5.1 -46

C Random Access Memories

C1 High-Permittivity Materials for DRAMs *H. Schroeder* C1.1 -24

C2 Ferroelectric RAMs *U. Böttger* C2.1 -32

C3 Magnetic Random Access Memory Devices *H. Dürr* C3.1 -16

D Logic Devices and Processors

D1 Alternative Gate Dielectrics for FET Devices *S. Mantl* D1.1 -26

D2 Ferroelectric Field-Effect Transistors *H. Kohlstedt* D2.1 -22

D3 superconductor Digital Electronics *M. Siegel* D3.1 -22

D4 Quantum Computing Using superconductors *A. Ustinov* D4.1 -18

D5 Molecular Electronics *R. Waser* D5.1 -20

E Mass Storage Devices

E1 Hard Disk Drives *A. Dietzel* E1.1 -20

E2 Magneto-optical Discs *K.Röll* E2.1 -16

E3 Rewritable DVDs based on Phase Change Materials *M. Wuttig* E3.1 -22

E4 Holographic 3D Memories *C. Buchal* E4.1 -16

E5 The "Millipede" -More than one thousand tips for future AFM data storage *P Vettiger a.o* E5.1 -24

F Data Transmission and Interfaces

F1 Transmission on Chip and Board Level *W. Mokwa , " , .* F1.1 -22

F2 Lightwave Systems *C Buchal* F2.1 -36

F3 Materials and Novel Passive Devices for Microwave Communication Systems *N. Klein* F3.1 -26

F4 Interfacing von Nervenzellen und Halbleiterchips *P. Fromherz* F4.1 -18

G Displays

G1 Liquid Crystal Displays *R. Zom " , "* G1.1 -26

G2 Components for Field Emission and Plasma Displays *P. Bachmann, H. Bechtel, G. Spekowius* G2.1 -40
