| 1. INTRODUCTION   | 1   |
| 2. PHYSICAL METHODS FOR PREPARATION OF DIAMOND AND DIAMONDLIKE COATINGS | 9   |
| 2.1 Sputtering  | 9   |
| 2.2 Ion beam  | 10  |
| 3. CHEMICAL METHODS FOR PREPARATION OF DIAMOND AND DIAMONDLIKE COATINGS | 27  |
| 3.1 Chemical vapour deposition  | 27  |
| 3.1.1 Conventional chemical vapour deposition                           | 27  |
| 3.1.2 Hot filament chemical vapour deposition (CVD) of diamond coatings | 34  |
| 3.2 Plasma chemical vapour deposition                                   | 41  |
| 3.2.1 Direct current plasma chemical vapour deposition                  | 41  |
| 3.2.2 Radio frequency (RF) plasma chemical vapour deposition            | 45  |
| 3.2.3 Microwave plasma chemical vapour deposition                       | 74  |
| 3.2.4 Thermal plasma chemical vapour deposition                         | 90  |
| 4. CHARACTERISTICS (PROPERTIES) OF DIAMOND AND DIAMONDLIKE COATINGS     | 94  |
| 5. APPLICATION OF DIAMOND AND DIAMONDLIKE COATINGS                      | 102 |
| 6. CONCLUSION   | 114 |
