

Forschungszentrum Jülich GmbH Institut für Festkörperforschung

Thomas Brückel and Werner Schweika (Editors)

Polarized Neutron Scattering

Lectures of the 1st Summer School
held at the Forschungszentrum Jülich
from 10 to 14 September 2002.

Schriften des Forschungszentrums Jülich
Reihe Materie und Material/Matter and Materials Volume 12
ISSN 1433-5506 ISBN 3-89336-314-9

Contents

Chapter 1 Werner Schweika 5 ..
Introduction to Polarized Neutron Scattering

Chapter 2 Otto Schärpf 31 ..
Polarization Elements

Chapter 3 Sergey Maleyev 99 ..
General Theory of Polarised Neutron Scattering in Magnetic Materials

Chapter 4 Sergey Maleyev 121 ..
Polarised Neutrons and Magnetism; Applications

Chapter 5 Sergey Maleyev 143 ..
Neutron Depolarisation and Investigation of Mesoscopic Magnetic Inhomogeneities

Chapter 6 P. Jane Brown 169 ..
Polarimetric Neutron Scattering III: Examples

Chapter 7 Bruno Dorner 195 ..
Inelastic Scattering of Polarized Neutrons from Magnetic Excitations

Chapter 8 Michael Monkenbusch 219 ..
Neutron Spin Echo Spectrometry

Chapter 9 Boris Toperverg 247 ..
Polarized Neutron Reflection and Off-Specular Scattering

Chapter 10 Jacques Schweizer 289 ..

Magnetic Form Factors and Magnetization Densities Investigated by Polarized Neutron Diffraction

Chapter 11 Thomas Brückel 323 ..

Magnetic X-Ray and Polarised Neutron Scattering
