TRACE

Tree Rings in Archaeology, Climatology and Ecology

Volume 1

Proceedings of the DENDROSYMPOSIUM 2002

April 11th -13th 2002, Bonn / Jülich, Germany

Edited by:

Gerhard Schleser; Matthias Winiger; Achim Bräuning; Holger Gärtner;

Gerhard Helle; Esther Jansma; Burkhard Neuwirth; Kerstin Treydte

Schriften des Forschungszentrums Jülich

Reihe Umwelt/Environment Band/Volume 33

ISSN 1433-5530 ISBN 3-89336-323-8

CONTENTS

F.H. Schweingruber and G. Schleser: 6

A glance back, a glance ahead

SECTION 1 ARCHAEOLOGY

A. Bilhamboz: 10

Dendroarchaeology from a Palaeodendroecological Perspective -The Case of Bronze and Iron Age Pile dwellings in Southwest Germany

H.H. Leuschner, U. Sass-Klaassen, E. Jansma, M. Baillie and M. Spurk: 13

Population dynamics and long-term growth depressions in European bog oaks as indicators of climate changes in the Holocene

Th. Westphal: 20

High medieval urban development between middle Elbe River and the Lower Oder based on dendrochronological data

SECTION 2 LONG TREE-RING CHRONOLOGIES

K.F. Kaiser, M. Schaub, B. Kromer & M. Friedrich: 24

Dendrochronologie im Spätglazial, Schmelzwasserschübe, Dansgaard-Oeschger Zyklen und Heinrich-Ereignisse (short Abstract)

K. Nicolussi and P. Schießling: 25

Eine ultra-lange Hochlagen-Chronologie für die zentralen Ostalpen: Möglichkeiten und Ergebnisse (short Abstract)

SECTION 3 CLIMATE

U. Büntgen, D. Frank and J. Esper: 28

A Detailed View on Instrumental Temperature Data from Northern Eurasia

B. Neuwirth and M. Winiger: 35

Dendrochronological Network Analyses of Central European Chronologies - A Conceptual Approach of a New Project

M. Schaub, K.F. Kaiser and B. Kromer: 40

Fossil pines from loamy slope sediments reflect Lateglacial climatic variations

J. Esper 47

A millennium-long temperature reconstruction for the Tien Shan Mountains, Kirghizia (short Abstract)

H.-P. Kahle and R. Unseld: 48

Analyse der raumzeitlichen Variationen des Radialzuwachses von Fichten in Südwestdeutschland (short Abstract)

Th. Riemer: 49

Trendanalyse mit gemischten Modellen -Methodik, Software und Anwendung in der Dendroklimatologie (short Abstract)

SECTION 4 ISOTOPES AND CLIMATE

T. Boettger, A. Hiller, C. Kremenetski and M. Friedrich: 52

Interrelations between climatic changes and northern and alpine Holocene pine limit movements -deduced from stable isotope signals of ^{14}C -dated subfossil pines (*Pinus sylvestris* L.) on the Kola Peninsula, north-western Russia

M. Saurer and R. Siegwolf: 60

Oxygen isotopes in tree rings" do they really reflect temperature?

K. Treydte, G.H. Schleser and M. Winiger: 63

Gamma ^{13}C , Gamma ^{18}O and tree ring width as climate proxies in the Karakorum I Pakistan (short Abstract)

SECTION 5 ISOTOPES AND PLANT PHYSIOLOGY

G. Helle and G.H. Schleser: 66

Seasonal variations of stable carbon isotopes from tree-rings of *Quercus petraea*

Ch. Mayr, W. Stichler and P. Trimborn: 71

The influence of temperature and relative humidity on Gamma ^{13}C values of C_3 plants in growth chamber experiments

SECTION 6 DENDROECOLOGY

A. Bräuning and J. Sobania: 76

Dendroecological investigations on mountain bog pine (*Pinus rotundata* Link) in a peat bog in Southwestern Germany

S. van Daalen, U. Sass-Klaassen and L.I. Kooistra: 82

How did 'bog oaks' grow? -First answers from the excavation of a mire woodland in Ypenburg, The Netherlands

A. Schmelter: 87

Fluctuations in subalpine tree-ring records from sites located along a dendroecological transect in Northern Patagonia

M. Friedrich, J. Boeren, S. Remmele, M. Küppers, C. Eschenbach, M. Knipping,

H.-P. Stika, T. Bättger, J. Vollbrecht, A. Renno and O. Ullrich: 90

A Late-Glacial forest in the lignite mine of Reichwalde -An interdisciplinary project (short Abstract)

SECTION 7 FOREST DYNAMICS AT THE TIMBERLINE

A. Mütterthies: 94

The Potential Timberline: Determination with dendrochronological methods

J. Block and U. Treter: 101

Growth conditions at the upper and lower forest limits in the mountain-forest steppe of Northwest Mongolia

U. Treter and J. Block: 108

Space-time variability of climatic influences on the growth patterns at the lower and upper timberline of the mountain forest steppe of Mongolia. Preliminary results and future dendrochronological research in Mongolia

SECTION 8 GEOMORPHOLOGY

A. Röpke: 116

Spruce trees as a mean of dating soils -reforestation after the clearings in the Valley of St. Antänien (Switzerland)

H. Gärtner: 120

The applicability of roots in Dendrogeomorphology

I. Sahling, K.-H. Schmidt and H. Gärtner: 125

Dendrogeomorphological Analysis of the enlargement of cracks at the Wellenkalk- scarp in the southern Thuringia Basin

L.I. Agafonov, Th. Huber and H. Strunk: 131

Datierung der Ausbreitungsgeschwindigkeit von Thermokarst-Hohlformen in Westsibirien mit dendrogeomorphologischen Methoden (short Abstract)

I. Roer, H. Gärtner and R. Dikau: 132

Bioindikation von Blockgletschersystemen im Turtmanntal (Wallis, Schweiz) (short Abstract)

List of Participants 133

Dendrosymposium 2002 (Bonn / Jülich)
