

Forschungszentrum Jülich GmbH
Institut für Festkörperforschung

Thomas Brückel, Gernot Heger, Dieter Richter and Reiner Zorn (Editors)

Neutron Scattering

Lectures of the Laboratory Course
held at the Forschungszentrum Jülich

In Cooperation with
RWTH Aachen, University of Bonn and University of Münster

Schriften des Forschungszentrums Jülich
Reihe Materie und Material/Matter and Materials Volume 15
ISSN 1433-5506 ISBN 3-89336-324-6

Contents

1 Neutron Sources H. Conrad

2 Properties of the Neutron, Elementary Scattering Processes D. Richter

3 Elastic Scattering from Many-Body Systems Th. Brückel

4 Polarization Analysis W. Schweika 5

Correlation Functions Measured by Scattering Experiments R. Zorn D. Richter

6 Continuum Description: Grazing Incidence Neutron Scattering O.H. Seeck

7 Diffractometer G. Heger

8 Small-angle Scattering and Reflectometry D. Schwahn

9 Crystal Spectrometer: Triple-axis and Back-scattering Spectrometer F. Güthoff H. Grimm

- 10 Time.of Flight Spectrometers** M. Monkenbusch
- 11 Neutron Spin.echo Spectrometer, NSE** M. Monkenbusch R.Zom
- 12 Structure Determination** G. Heger
- 13 Inelastic Neutron Scattering: Phonons and Magnons** M. Braden
- 14 Soft Matter: Structure** D. Schwahn
- 15 Polymer Dynamics** D. Richter
- 16 Magnetism** Th. Brückel
- 17 Translation and Rotation** M. Prager
- 18 Texture in Materials and Earth Sciences** W. Schäfer
