

Forschungszentrum Jülich GmbH
Institut für Sicherheitsforschung und Reaktortechnik

Reinhard Odoj, Jürgen Baier, Peter Brennecke
and Klaus Kühn (Editors)

Radioactive Waste Products 2002

Proceedings of the 4th International Seminar on
Radioactive Waste Products held in Würzburg (Germany)
from 22 to 26 September 2002 .

In Co-operation with
European Commission
Bundesamt für Strahlenschutz

Schriften des Forschungszentrum Jülich
Reihe Energietechnik / Energy Technology Volume 27
ISSN 1433-5522 ISBN 3-89336-335-1

Contents

Opening

G . Eisenbeiß, Director of Research Centre Jülich1

H. Rösel; Vice-President of the

Federal Office for Radiation Protection, Salzgitter, Germany3

Inaugural Address

P. de Regge; IAEA, Austria

Protecting People and the Environment -

Nuclear Applications outside the Energy Sector.. . . .7

International Overviews

H. Rösel, Fed. Office for Radiation Protection, Salzgitter, Germany

Radioactive Waste Management in Germany19

S. Newstead, Environment Agency, Lancaster, UK

Radioactive Waste Management in the UK.. . . .29

R. Michel, University of Hanover, Germany

Characterization of Radioactive Waste Products in the Context
of the New German Radiation Protection Ordinance and of

Relevant International Standards.37

Decommissioning and Standardization

U . Birkhold and D. Seifert, ISE GmbH, Rädermark, Germany Strategy of Waste Management on the Example of the Decommissioning of a Nuclear Power Plant	49
U . Hellwig, Verein für Kernverfahrenstechnik und Analytik Rossendorf e.V., Dresden, Germany Waste Management and Analytics at VKTA	57
A. Lewis, G . Hawkins and P. Milverton, UKEA, Dorchester, UK A Practical Approach to Volume Minimisation of Low Level Radioactive Waste at UKAEA, Winfrith	65
E. Poskas and J .E. Adomaitis, Lithuanian Energy Institute, Kaunas, Lithuania Strategy on Radioactive Waste Management in Lithuania	71
Waste Acceptance, Requirement and Licensing P. Brennecke; Fed. Office for Radiation Protection, Salzgitter, Germany Waste Acceptance Requirements in Germany: Current Status and Future Developments	81
P. Zuidema, H . Maxeiner and M. Schweingruber; NAGRA, Wettingen, Switzerland Waste Acceptance: Procedures, Criteria and Background	91
J. Dalton and S. Wisbey, United Kingdom Nirex Ltd ., Harwell, UK Integrated System for Long-Term Radioactive Waste Management in the UK. ...	49
M . Dutzer, ANDRA, Chatenay-Malabry, France From Waste Packages Acceptance Criteria to Waste Packages Acceptance Process at the Centre de l'Aube Disposal Facility	109
M . Sailer and J. B. Zech*; Öko-Institut, Darmstadt, Germany; *TÜV Süddeutschland, Munich, Germany Long-term Interim Storage and Conditioning of LAW and MAW in Germany	115
A. Graf, H . Merx, C. Rittmeyer and L. Valencia, FZK, Karlsruhe, Germany Safe Long-term Interim Storage of Waste Products at the Karlsruhe Research Center	123
E . Kolbe, M . Schweingruber and H . Maxeiner, NAGRA, Wettingen, Switzerland Characterization and Documentation of Radioactive Waste in Switzerland	133
R. Dullau*, S. Theis, S. Uekötter and F. Klöckner* ; GNS, Essen, Germany; *WTI, Jülich, Germany Progress in Documentation Standards for Long-Term Interim Storage of Radioactive Waste	141
Activity Declaration and Assessment	
W. Wurtinger, W. Müller and D. Gründler, Institute for Safety Technology, Cologne, Germany Activity Declaration for Radioactive Waste - Methods and Application	151

K. H. Hwang, K. J. Lee, C. W. Jeong* and S. M. Ahn*; Korea Advanced Institute of Science and Technology, Daejeon, Korea; *Korea Institute of Nuclear Safety, Daejeon, Korea Status of Operation of Radionuclides Assay System in Korean Nuclear Power Plant	161
A. Morales León, J. G. Garrido and J. L. Leganés Nieto, ENRESA, Madrid, Spain Assessment of LILW Package Activity in Spain	169
J. Johansson, J. Carlsson, B. Torstenfelt* and T. Hansson**; Swedish Nuclear Fuel and Waste Management CO, Sweden; * Swedpower AB, Sweden; ** Ringhalsgruppen AB, Sweden Swedish Waste Disposal Concept for Operational Waste	177
B. Droste, H. Völzke and U. Zencker, BAM, Berlin, Germany Safety Assessment Aspects of Materials for Radioactive Waste Containers	185
W. Müller, Institute for Safety Technology, Cologne, Germany Approaches to a Realistic Determination of Gas Generation in Radioactive Waste	191
Quality Assurance and Control A. Morales León, J. L. Leganés Nieto and J. G. Garrido, ENRESA, Madrid, Spain Production Controls (PC) and Technical Verification Testing (TVT) - A Methodology for the Control and Tracking of LILW Waste Package Conditioning	201
St. Steyer and H.-J. Sanden*; Fed. Office for Radiation Protection, Salzgitter, Germany; * Forschungszentrum jülich, Germany Quality Assurance Measures for Radioactive Waste Products to be Returned from Abroad	209
G. Roth and J. Fleisch, FZK, Karlsruhe, Germany Melting of Qualified HLW-Glass-the Process and Product Control of the Karlsruhe Vitrification Facility (VEK)	219
P. v. Iseghem, K. Lemmens and V. Pirlet, SCK-CEN, Mol, Belgium Assessment of the Compatibility of Vitrified High-Level Waste with Geological Disposal in a Boom Clay Formation: Remaining Uncertainties	229
S. R. Daish and N. A. Leech*; NNC Ltd., Dorset, UK; *The Environment Agency, Lancaster, UK Quality Intercomparison Testing of Waste Package Assay Systems on UK Nuclear Sites	237
Non-Destructive Analysis Ch. Lechner, Austrian Research Centers GmbH, Seibersdorf, Austria Non-destructive Assay of Radioactive Waste Packages	249
M. Bruggemann, J. Paepen, W. de Boek, R. May* and D. Strange*; SCK-CEN, Mol, Belgium; * NNC Ltd., Dorset, UK Independent Quality Checking of UK LLW for Plutonium Using the SCK-CEN Hexagon 2000 Passive Neutron Coincidence Counter	257

J . Botte and P. Luycx, Belgoprocess, Dessel, Belgium Waste Characterization Methods at Belgoprocess and the Importance of NDA	267
Characterization of Waste	
St. Halaszovich and J . Wolf, Forschungszentrum Jülich, Germany Qualified Waste Conditioning in New Waste Conditioning Facilities at FZJ	277
F.W. Ledebrink and P.Faber, Siemens Power Generation, Germany Conditioning of Plutonium Waste from MOX-Fuel Fabrication for Long-Term Interim Storage	287
R. Weinreich, M . Argentini and D. Schumann, Paul Scherrer Institut, Villigen, Switzerland Determination of Nuclide Inventories in Accelerator Radwaste	293
F. Jallu, C. Passard, A. Mariani, J .-L. Ma, G. Baudry, J. Romeyer-Dherbey, H. Recroix, M. Rodriguez, J . Loridon, C. Denis and H . Toubon*; CEA-Cadarache, France; * COGEMA, Velizy-Villacoublay, France Characterization of Alpha Low Level Waste in 118 Litre Drums by Passive and Active Neutron Measurement in the PROMETHEE Assay System	303
B. Perot, P. Pin, J . L. Artaud, P. Bonifay, S. Bernard, D. Fulleringer*, J. Misraki*, S. Dogny** and P. Chany**; CEA-Cadarache, France; * GIECODEM, Bagnols-sur-Cèze, France; ** COGEMA, Bagnols- sur-Cèze, France Self-Induced X-Ry Fluorescence: An Innovative Method for Uranium Characterization in Bituminized Waste Drums	311
A. G . Espartero, J . L. Gascôn, A. G . de la Huebra, G . Pina, M . Rodriguez, J . A. Suárez and A. Morales*; CIEMAT, Madrid, Spain; * ENRESA, Madrid, Spain Characterization of Radioactive Graphite from NPP Dismantling	319
A.J. Frith, E . D . Dickson*, J . A. Hewetson* and K. McCormick *; NIRAS, UK; * BNFL, UK Free Release Waste Characterization during the Decommissioning of Windscale Pile 2 Chimney	333
Poster Presentations	
H . Völzke, T. Neumeyer and G . Wieser; Bundesanstalt für Materialforschung und -prüfung, Berlin, Germany Status and Developments in Design Testing and Licensing of Non-Heat Generating Radioactive Waste containers in Germany	343
M. Albrecht, Y. Bulbik*-**, W. Klockmann, V. Mansurov* and V. Khanov*; DMT GmbH, Essen Germany; * Siberian Aerospace Academy, Krasnoyarsk, Russia ; ** UNESCO Chair in New Materials & Technologies, Krasnoyarsk State Technical University, Russia Monitoring of Induced Seismicity: Tool for Control Stability of Underground Nuclear Waste Repository	347
N . A. Carr and M . Rarok; United Kingdom Nirex Ltd ., Harwell, UK NIREX - The Complete Package	351

S. Wisbey, P. Wood and W. Sievwright; United Kingdom Nirex Ltd ., Harwell, UK Development of a System to Maintain, Monitor and Check Waste Packages during Interim Storage	355
A. W. Harris, I . Upshall, S. Wisbey and J. Jowett*; United Kingdom Nirex Ltd ., Harwell, UK; * Serco Assurance plc, UK The Identification of Radionuclides Relevant to Long-Term Radioactive Waste Management in the UK	359
F. Druyts, J. Fays and P. van Iseghem ; SCK-CEN, Mol, Belgium Conditioning Methods for Beryllium Waste	363
J . Botte, P. Luycx and M. Bruggeman; Belgoprocess, Dessel, Belgium; *SCK-CEN, Mol, Belgium Extension of the Measurement Range of the IPAN/GEA System from mg Pu to 200 g Pu for the Non-Destructive Assay of 200 l and 400 l Waste Packages	367
G . Brunetti, N . Cherubini*, A. Dodaro* and F. Troiani* ; University of Rome, Italy; * ENEA RAD, Casaccia, Santa Maria di Galeria, Italy SRWGA: A Comprehensive System for Gamma Characterisation of Radioactive Waste Packages	371
Ch. Lierse, M . Bruggeman*, A. Gonzalez de la Huebra**, S. Daish# and T. McMenamin#"; TU Munich, Germany; * SCK-CEN, Mol, Belgium ; ** CIEMAT-JEN, Madrid, Spain; "NNC Ltd ., Dorset, UK; "EC-DG RTD, Brussels, Belgium EN-TRAP - The European Network of Testing Facilities for Quality Checking of Radioactive Waste Packages	375
