

## TABLE OF CONTENTS

### Global Water Issues

|                                                                    |    |
|--------------------------------------------------------------------|----|
| Water in a Globalised World .....                                  | 7  |
| <i>(R. Gimbel)</i>                                                 |    |
| Actual and potential Conflicts in Transboundary River Basins ..... | 17 |
| <i>(H.-J. Liebscher)</i>                                           |    |

### Basic Principles of Water in Biogeosystems

|                                                        |    |
|--------------------------------------------------------|----|
| Water in Biogeosystems .....                           | 31 |
| <i>(H. Vereecken, M. Herbst &amp; J. Vanderborght)</i> |    |
| Interaction between Plant, Soil and Water.....         | 49 |
| <i>(J. Lindenmair)</i>                                 |    |

### Operationalisation of Sustainable Water Management in the European Union

|                                                                                              |    |
|----------------------------------------------------------------------------------------------|----|
| The EU Water Framework Directive as a Framework for Sustainable Groundwater Management ..... | 61 |
| <i>(G. Dörhöfer)</i>                                                                         |    |
| Nitrate Contamination of Surface- and Groundwater in Germany – Results of Monitoring .....   | 71 |
| <i>(R. Wolter)</i>                                                                           |    |
| Water Fluxes and Diffuse Nitrogen Pollution at the River Basin Scale .....                   | 85 |
| <i>(F. Wendland, H. Bogen, H. Goemann, P. Kreins &amp; R. Kunkel)</i>                        |    |

### Operationalisation of Sustainable Water Management in Arid and Semiarid Regions

|                                                                                         |     |
|-----------------------------------------------------------------------------------------|-----|
| Modelling for Sustainable Groundwater Management in Arid and Semiarid Environments..... | 101 |
| <i>(W. Kinzelbach, P. Bauer, P. Brunner &amp; T. Siegfried)</i>                         |     |
| Towards a Sustainable Use of Natural Resources in the Aral Sea Basin .....              | 117 |
| <i>(C. Martius, J. Lamers, M. Ibrakhimov &amp; P. Vlek)</i>                             |     |
| Water and Irrigation in Australia.....                                                  | 135 |
| <i>(K. L. Bristow)</i>                                                                  |     |

### Hydropower and Sustainability

|                                          |     |
|------------------------------------------|-----|
| Hydropower and Sustainability .....      | 163 |
| <i>(K. U. Birnbaum &amp; J.-F. Hake)</i> |     |
| The Three-Gorges-Project in China.....   | 186 |
| <i>(G. Subklew)</i>                      |     |
