Preface	1
List of Participants	3
Alphabetical Author List	5

Presentations:

Theory and computational approaches to cryogenic moderators

Evaluation of Scattering Laws and Cross Sections for Calculation of Production and Transport of Cold and Ultracold Neutrons <i>W. Bernnat, J. Keinert, M. Mattes</i>	9
Neutron Cross Sections of Cryogenic Materials: A Synthetic Kernel for Molecular Solids <i>J.R. Granada, V.H. Gillette, S. Petriw, F. Cantargi, M.E. Pepe, M.M. Scaffoni</i>	43
Kinetics of Irradiated Liquid Hydrogen <i>E. B. Iverson and J. M. Carpenter</i>	51
Composite Hydrogen-Solid Methane Moderators <i>D. Picton, S. Bennington, S. Ansell, J. Fernandez-Garcia, T. Broome</i>	59
Automation Techniques Applied to a Systematic Study of Moderator Coupling <i>S. Ansell, J.F. Garcia, S.M. Bennington, D.J. Picton, T. Broome</i>	71
Fluid Dynamics of Cryogenic Two-Phase Flows <i>K. Verfondern, W. Jahn</i>	77
Experimental background, results and analysis	
Neutron Scattering Measurements from Cryogenic Ammonia: A Progress Report <i>J. Carpenter, B. Micklich, J.-M. Zanotti</i>	89
Neutron Cross Section of Methane Hydrate <i>Y. Kiyonagi, S. Date, T. Horikawa, J. Takamine, H. Iwasa, T. Kamiyama, T. Uchida, T. Ebinuma, H. Narrita, S. M. Bennington</i>	97
Structural Phase Transitions and Dynamics of Solid Mesitylene Investigated by Diffraction and Inelastic Incoherent Neutron Scattering Methods <i>I. Natkaniec, K. Holderna-Natkaniec</i>	103
Inelastic Neutron Scattering and Spectral Measurements of Advanced Cold Moderator Materials <i>H. Conrad, W.F. Kuhs, K. Nünighoff, C. Pohl, M. Prager</i>	113
Methane Pellet Moderator Development <i>C.A. Foster, D.E. Schechter, J.M. Carpenter</i>	123

Experimental background, results and analysis (cont'd.)

Study of Radiation Effects in Hydrogenous Moderator Materials at Low Temperatures (URAM-2 Project) <i>E. Shabalin, V. Golikov, S. Kulikov, L. Golovanov, V. Melikhov, E. Kulagin, A. Belyakov, V. Ermilov, V. Konstantinov, A. Androsov, Yu. Borzunov</i>	129
The JESSICA Experiment – Part I: Improvements of the JESSICA Experiment <i>K. Nünighoff, H. Conrad, D. Filges, F. Goldenbaum, R.D. Neef, W. Ninaus, N. Paul, C. Pohl, H. Schaal, A. Smirnov, H. Stelzer, H. Tietze-Jänsch, W. Wohlmuther</i>	155
A Cryogenic Moderator System for JESSICA, a Test Facility for Advanced Cold Moderators <i>H. Stelzer, N. Bayer, H.-K. Hinssen, Th. Matzerath</i>	161
Experimental Studies of Neutronic Characteristics of Hydrogen Moderators at Para-Rich Concentrations and Comparison with Calculations <i>Y. Kiyonagi, H. Ogawa, M. Ooi and H. Iwasa</i>	169
The JESSICA Experiment – Part II: Results from the JESSICA Experiment <i>C. Pohl, H. Conrad, D. Filges, F. Goldenbaum, R.D. Neef, W. Ninaus, K. Nünighoff, N. Paul, H. Schaal, A. Smirnov, H. Stelzer, H. Tietze-Jänsch, W. Wohlmuther</i>	175
Spontaneous Burp Phenomenon: Analysis of Experimental Data and Approach to Theoretical Interpretation <i>E. Shabalin</i>	183
Appendix	
Preliminary Evaluation of the Cold Neutron Cross Sections of CH ₄ - Hydrate <i>J.R. Granada, V.H. Gillette, L. Torres, M.M. Scaffoni, F. Cantargi</i>	199
The Stern-Kirby-Durham approach to CH ₄ -hydrate production <i>H. Soltner</i>	211
