List of Figures	viii
List of Tables	xv
Abbreviations and Symbols	xix
1 Introduction	1
1.1 Aims and scope	2
2 Soil solution sampling with suction cups	4
2.1 Terminology	4
2.2 The suction cup	4
2.3 Installation of a suction cup	5
2.4 Operation of a suction probe	6
2.5 Problems of soil water extraction	7
2.6 Representativity of the collected soil water	9
3 Theory of water flow and solute transport in porous media	12
3.1 Water flow	12
3.2 Solute transport	13
4 Methods and Materials	16
4.1 Test site Merzenhausen	16
4.1.1 Soil sampling	17
4.1.2 Soil physical parameters	17
4.2 Measurement equipment	19
4.2.1 Sampling pits	19
4.3 Lysimeters	22
4.3.1 Weighable lysimeters	22
4.3.2 Measurement of soil water dynamics	24
4.4 Measurement of climatic data	27
4.5 Application of test compounds and water tracer	28
4.6 Irrigation	31
4.7 Simulation of soil water fluxes	32
4.7.1 Parametrization of the soil water characteristic	32
4.8 Moment analysis of breakthrough curves	33

5 Preliminary experiments	35
5.1 Sorption behaviour of suction cups	35
5.1.1 Sorption of raw material of the suction cups	35
5.1.2 Cleaning procedure of suction cups	35
5.2 Assessment of the saturated hydraulic conductivity of suction cups	36
6 Simulation of suction cup behaviour: literature overview	38
6.1 Analytical solutions of suction cup behaviour	38
6.2 Numerical simulations of suction cup behaviour	44
7 Results	47
7.1 Numerical simulation of suction cup behaviour	47
7.1.1 Amount of extracted water	57
7.1.2 Changes of cup material properties	58
7.1.3 Solute extraction in a heterogeneous medium	60
7.1.4 Simulation with transient conditions	62
7.2 Field- and lysimeter experiment	66
7.2.1 Field experiment	66
7.2.2 Lysimeter experiment	82
8 Summary and Conclusion	96
Bibliography	100
A Annex	115
A.1 Test site Merzenhausen	115
A.1.1 Soil chemical parameters	115
A.2 Installation	117
A.3 Tensiometers	118
A.4 Suction cups	118
A.5 Ceramic plates	119
A.6 Test substances	120
A.6.1 Methabenzthiazuron	120
A.6.2 Ethidimuron	122
A.7 Equipment of the climatic station	124
A.8 Agricultural practice on lysimeters and test site Merzenhausen	125
A.9 Background concentrations	127
A.10 Application of the test substances	128
A.11 Sorption experiments of the borosilicate-glass suction cups	129
A.12 Analytics	132
A.13 Simulated temperature distribution in lysimeters	133
A.14 Extraction rates of the suction cup	134
A.15 Calculation of the moments	135
A.16 Field and lysimeter experiments	136
A.16.1 Bromide BTC lysimeters at the Agrosphere Institute	137
A.16.2 Bromide BTC test site Merzenhausen	139
