Abstract	i
Kurzfassung	iii
List of Figures	ix
List of Tables	xvii
Abbreviations and Symbols	xix
1 General introduction	1
1.1 Rationale	1
1.2 Experimental and model approaches	2
1.3 General objectives and outline of the thesis	3
2 Sorption of sulfadiazine in soil	5
2.1 Introduction	5
2.2 Sorption Theory	8
2.2.1 One-domain sorption	8
2.2.2 Two domain sorption	10
2.2.3 Three domain sorption	13
2.3 Materials and methods	15
2.3.1 Experimental setup	15
2.3.2 Sampling and analysis	15
2.3.3 Data analysis and parameter estimation	17
2.4 Results	17
2.4.1 Experimental results	17
2.4.2 Modelling results	23
2.5 Discussion	35
2.6 Conclusions	40
3 Transport of sulfadiazine	41
3.1 Introduction	41
3.2 Theory of solute transport	43
3.2.1 Sorption models	44
3.2.2 Isotherm-based models	44

3.2.3	Attachment/detachment models	47
3.3	Materials and Methods	48
3.3.1	Soil columns	48
3.3.2	Transport experiments	49
3.3.3	Parameter estimation	50
3.4	Results	51
3.4.1	Transport and breakthrough curves of chloride	51
3.4.2	Transport of SDZ - experimental results	52
3.4.3	Transport of SDZ - modelling results	54
3.5	Discussion	64
3.6	Conclusions	68
4	Transformation and transport	71
4.1	Introduction	71
4.2	Materials and Methods	74
4.2.1	Experiments	74
4.2.2	Model approaches	74
4.3	Results	80
4.3.1	Experimental results	80
4.3.2	Modelling results	81
4.4	Discussion	99
4.5	Conclusions	100
5	Final remarks	101
5.1	Synthesis of results	101
5.2	General conclusions	104
5.3	Outlook	105
	Bibliography	107
A	Properties of sulfadiazine	115
B	Soil properties	116
C	Analysis of ^{14}C in liquid samples	118
D	Analysis of ^{14}C in soil samples	119
E	Transformation products	120
E.1	Detection of the transformation products	120
E.2	Identification of the transformation products	121
E.3	Conclusions	125

F	Mineralization of ^{14}C-SDZ in wet soil	127
F.1	Experimental setup	127
F.2	Sampling and analysis	128
F.3	Results	128
F.4	Conclusions	129
G	Occurrence of transformation	130
G.1	Experimental setup	130
G.2	Results	131
G.3	Conclusion	131
H	Chemicals and Instruments	133
H.1	Chemicals	133
H.2	Instruments	134
