

## Table of Contents

|       |  |    |
|-------|--|----|
| 1.    | Introduction .....   | 1  |
| 2.    | Aims .....   | 3  |
| 3.    | Literature Review .....  | 4  |
| 3.1   | Fuel Cells.....  | 4  |
| 3.2   | Principle of a Fuel Cell.....  | 4  |
| 3.3   | Types of Fuel Cells .....  | 5  |
| 3.4   | Solid Oxide Fuel Cells (SOFCs) .....                                       | 6  |
| 3.4.1 | Electrolyte .....  | 7  |
| 3.4.2 | Cathode.....   | 7  |
| 3.4.3 | Anode .....  | 8  |
| 3.4.4 | Interconnect.....  | 8  |
| 3.4.5 | SOFC Design.....   | 9  |
| 3.5   | Fundamentals of Oxidation .....  | 10 |
| 3.5.1 | Thermodynamics .....   | 10 |
| 3.5.2 | Kinetics of Oxidation .....  | 12 |
| 3.5.3 | Oxidation of Fe-Cr Alloys.....   | 14 |
| 3.6   | Electrical conductivity basics.....  | 16 |
| 3.7   | Fundamentals of alloy creep .....  | 18 |
| 3.8   | Ferritic Steels.....   | 19 |
| 3.9   | Metallic Interconnect Development .....                                    | 20 |
| 3.10  | Ferritic steels designed for SOFC applications .....                       | 22 |
| 3.11  | Materials Compatibility Issues.....  | 26 |
| 4.    | Layout of the work .....   | 28 |
| 5.    | Experimental .....   | 30 |
| 5.1   | Materials.....   | 30 |
| 5.2   | Oxidation Tests .....  | 32 |
| 5.2.1 | Thermogravimetry (TG).....   | 33 |
| 5.2.2 | Cyclic oxidation studies .....   | 34 |
| 5.3   | Characterisation of oxidised specimens .....                               | 34 |
| 5.3.1 | Optical Metallography/Electron Microscopy.....                             | 34 |
| 5.3.2 | SNMS analysis .....  | 34 |
| 5.3.3 | Raman spectroscopy.....  | 35 |
| 5.4   | Electrical resistance measurements.....                                    | 35 |
| 5.5   | Creep tests .....  | 35 |
| 5.6   | Coefficient of thermal expansion .....                                     | 36 |
| 5.7   | Manufacturing of coatings .....  | 36 |
| 6.    | Development of improved ferritic interconnect materials .....              | 37 |
| 6.1   | Oxidation in Air .....   | 37 |
| 6.1.1 | Oxidation in Air, 800°C, 1000h .....                                       | 37 |
| 6.1.2 | Oxidation in Air, 900°C, 1000h .....                                       | 42 |
| 6.1.3 | Long term oxidation behaviour in air at 800°C .....                        | 51 |
| 6.1.4 | Temperature dependence of oxidation behaviour .....                        | 55 |
| 6.1.5 | Summary of air oxidation.....  | 58 |
| 6.2   | Oxidation behaviour in simulated anode gas .....                           | 62 |
| 6.2.1 | Oxidation in Ar-H <sub>2</sub> -H <sub>2</sub> O.....                      | 62 |
| 6.2.2 | Mechanism of scale formation .....   | 69 |
| 6.2.3 | SNMS analysis of scale formed in Ar-H <sub>2</sub> -H <sub>2</sub> O ..... | 73 |
| 6.3   | Specimen thickness dependence of oxidation rate .....                      | 79 |

|       |   |     |
|-------|---|-----|
| 6.3.1 | Discussion of the thickness dependence on the oxidation behaviour ..... | 96  |
| 6.4   | Alloy Microstructure .....  | 100 |
| 6.4.1 | Effect of alloying elements .....                                       | 100 |
| 6.4.2 | Effect of time and temperature on the Laves phase formation .....       | 103 |
| 6.5   | Electrical conductivity of oxide scales.....                            | 109 |
| 6.6   | Creep Tests .....   | 116 |
| 6.7   | Ductility.....  | 121 |
| 6.8   | Thermal expansion characteristics .....                                 | 122 |
| 6.9   | Other alloy modifications.....  | 125 |
| 6.9.1 | Effect of W and Si.....   | 125 |
| 6.9.2 | Variation of Cr content.....  | 127 |
| 6.9.3 | Effect of Mo and V.....   | 128 |
| 7.    | Anode side protective coatings .....                                    | 132 |
| 7.1   | Definition of the problem.....  | 132 |
| 7.2   | Metallic Coatings .....   | 134 |
| 7.2.1 | Reference system.....   | 134 |
| 7.2.2 | Cu layer .....  | 135 |
| 7.2.3 | Cu as a barrier layer .....   | 136 |
| 7.2.4 | Co layer .....  | 137 |
| 7.2.5 | Ag layer .....  | 138 |
| 7.2.6 | W as a barrier layer .....  | 140 |
| 7.2.7 | Summary of the results with metallic coatings .....                     | 142 |
| 7.3   | Ceramic coatings .....  | 143 |
| 7.3.1 | Selection of materials .....  | 143 |
| 7.3.2 | Ceria as diffusion barrier .....  | 144 |
| 7.3.3 | Conductivity of ceria .....   | 147 |
| 7.4   | Anode side protective coatings: Summary.....                            | 151 |
| 8.    | Conclusions .....   | 152 |
| 9.    | References .....  | 155 |
| 10.   | Appendix .....  | 160 |
