Agrosphere (IBG-3)

Full-waveform inversion of surface ground penetrating radar data and coupled hydrogeophysical inversion for soil hydraulic property estimation

Sebastian Busch

Schriften des Forschungszentrums Jülich
Reihe Energie & Umwelt / Energy & Environment

Band / Volume 202

ISSN 1866-1793

ISBN 978-3-89336-930-0

Table of Contents

Chapter 1	Introduction.....	1
1.1	Research Topic	1
1.2	Thesis objectives and outline	4
Chapter 2	Theory.....	7
2.1	Maxwell's equations	7
2.1.1	Electromagnetic properties in earth materials	8
2.1.2	Electromagnetic field in homogeneous space	8
2.1.3	Electromagnetic field in a homogeneous halfspace	9
2.2	Exact-field electromagnetic forward model	9
Chapter 3	Quantitative conductivity and permittivity estimation using full-waveform inversion of surface GPR data*	13
3.1	Full-waveform inversion methodology	14
3.1.1	Starting model estimation using far-field forward model	14
3.1.2	Exact forward modeling.....	15
3.1.3	Source wavelet estimation	15
3.1.4	Full-waveform inversion.....	16
3.2	Application to synthetic data.....	20
3.3	Application to measured data.....	26
3.4	Conclusions.....	31
Chapter 4	Improved characterization of fine texture soils using surface GPR full-waveform inversion*	33
4.1	Combined analysis of the soil properties	34
4.1.1	Selhausen test site	34
4.1.2	Measurement setup	34
4.2	Results and discussion	35
4.2.1	ERT and EMI inversion	35
4.2.2	GPR full-waveform inversion	36
4.3	Conclusions.....	47
Chapter 5	Coupled hydrogeophysical inversion of time-lapse surface GPR data to estimate hydraulic properties of a layered subsurface*	49
5.1	Methodology	50
5.1.1	Test site.....	51
5.1.2	Interval velocity and depth model estimation from GPR data	51
5.1.3	Hydrological model with film flow	53
5.1.4	Conversion of soil water content into interval velocities and travel times.....	55

5.1.5	Coupled inversion for hydraulic properties.....	55
5.2	Application to synthetic data.....	56
5.3	Application to field data.....	60
5.4	Conclusions.....	68
Chapter 6	Conclusions and Outlook	71
6.1	Surface GPR full-waveform inversion.....	71
6.2	Coupled inversion of time-lapse surface GPR data	73
6.3	Outlook	74
Appendix A	Chlorides and moisture assessment in concrete by off-ground	
	GPR full-waveform inversion*	77
A.1	Basics of steel corrosion due to the presence of chlorides.....	77
A.2	Experimental setup.....	78
A.3	Forward model.....	80
A.4	GPR system characterization	81
A.5	Full-waveform inversion methodology	84
A.6	Full-waveform inversion results	87
A.7	Conclusions.....	89
Appendix B		91
A.8	List of Figures.....	91
A.9	List of Tables.....	96
Appendix C		97
A.10	List of Publications	97
A.11	International Conferences and Workshops	98
A.12	About the Author	100
Bibliography		101
Acknowledgement		111
