Table of Contents

ZUSAMMENFASSUNG	I
ABSTRACT	III
1. INTRODUCTION	1
1.1 What is the air we breathe?	1
1.2 Sources of VOCs in the troposphere	4
1.2.1 Sinks of VOCs	7
1.2.2 OH reactivity	10
1.3 Measurements of VOCs	13
1.3.1 Preconcentration techniques	13
1.3.2 Separation and detection	14
1.3.3 New improvements in the VOC analytics	14
1.4 The PEGASOS project	16
1.5 Focus of this work	16
2. EXPERIMENTAL SECTION	19
2.1 Zeppelin NT as a measuring platform for atmospheric research	19
2.2 Equipment on board the Zeppelin NT	20
2.2.1 Permanent equipment	21
2.2.2 Cabin layout Photochemistry (CL-8)	21
2.2.3 Cabin layout SOA (CL-5)	21
2.2.4 Cabin layout Nucleation (CL-9)	22
2.3 Measurement of the total OH reactivity	23
2.4 Set-up of the HGC instrument	24
2.4.1 General overview of the instrument	24
2.4.2 General functionality of the HGC instrument	25
2.4.3 Implementation of the HGC on the Zeppelin NT	27

2.4.4	The cooling assembly of the HGC	34
2.4.5	The electronic enclosure of the HGC	36
2.4.6	Gas cylinder unit	36
2.5	Measuring method and the characterization of the HGC	37
2.5.1	Sampling setup	37
2.5.2	Influence of ozone	39
2.5.3	Influence of humidity	41
2.5.4	Carbon based adsorbents	42
2.5.5	Separation and detection	45
2.5.6	System control and data analysis.....	46
2.6	Calibration of the HGC	47
2.6.1	Sensitivity shift of the MSD	47
2.6.2	Blank measurements.....	50
2.6.3	Calculation of mixing ratios	51
2.6.4	Calibrated substances	52
3.	OBSERVATIONS	57
3.1	Measurement sites	57
3.1.1	North campaign in the Netherlands.....	57
3.1.2	South campaign in Italy.....	58
3.2	Measurement flights and HGC data coverage.....	59
3.2.1	Campaign in the Netherlands	59
3.2.2	Italy campaign	60
3.2.3	Meteorology of both parts of the campaign	62
3.3	Overall VOC observations	63
3.3.1	Anthropogenic VOCs	63
3.3.2	Biogenic VOCs.....	66
3.3.3	Oxygenated compounds	66
3.3.4	Overall observation for both parts of the campaign	68
3.4	Transfer flights	69
3.4.1	South transfer flights	73
3.5	Vertical profiles	77
3.5.1	Vertical profile flight F023/024	78
4.	DISCUSSION.....	83
4.1	The OH reactivity.....	83
4.2	Discussion of errors and uncertainties of the measured and calculated OH reactivity	84

4.2.1	Random and systematic errors	84
4.2.1	Influence of temperature on the calculated total OH reactivity	85
4.3	Overview of the total OH reactivity during the PEGASOS campaign	86
4.3.1	Observations of the measured and calculated OH reactivity	86
4.3.2	Observations of the individual contributions to the OH reactivity	88
4.3.3	Discussion of the observations of the individual contributions to the OH reactivity	90
4.3.4	Observations of the contribution of the OVOCs to the OH reactivity	91
4.3.5	Discussion of the contribution of the OVOCs to the OH reactivity	93
4.4	A cross-section of the OH reactivity of western and southern Europe	95
4.4.1	North transfer flight	96
4.4.2	South transfer flight	103
4.4.3	Comparison of both transfer flight	108
4.5	Analysis of the PBL layering - Vertical profiles	109
4.5.1	The layering of the troposphere	109
4.5.2	Vertical profile flights	111
4.5.3	Measured OH reactivity	112
4.5.4	Calculated OH reactivity and the missing reactivity	113
4.5.5	The individual VOC contributions to the calculated OH reactivity	116
4.5.6	Ratio of $k_{\text{OH}}(\text{OVOC})/k_{\text{OH}}(\text{VOC})$ in the NBL	122
4.5.7	The $k_{\text{OH}}(\text{OVOC})/k_{\text{OH}}(\text{VOC})$ ratio in the different layers	125
5.	SUMMARY AND CONCLUSION	133
	LIST OF ABBREVIATIONS	137
	APPENDIX	140
	BIBLIOGRAPHY	166
	ACKNOWLEDGEMENTS	180
	ERKLÄRUNG	182
