# Engineering of *Corynebacterium glutamicum* towards utilization of methanol as carbon and energy source

Sabrina Witthoff

Schriften des Forschungszentrums Jülich  
Reihe Gesundheit / Health

Band / Volume 78

---

ISSN 1866-1785

ISBN 978-3-95806-029-6

## Content

<b>1 Summary.....</b>	<b>1</b>
1.1 Summary English.....	1
1.2 Summary German.....	3
<b>2 Introduction.....</b>	<b>5</b>
2.1 Methylotrophic metabolism.....	6
2.1.1 Oxidation of methylated substrates.....	8
2.1.2 Oxidation of formaldehyde to CO <sub>2</sub> .....	9
2.1.3 Assimilation of formaldehyde, CO <sub>2</sub> and/or methylene-H <sub>4</sub> F.....	13
2.2 <i>Corynebacterium glutamicum</i> as potential platform organism for methanol-based fermentation processes.....	17
2.3 Aims of this thesis.....	19
<b>3 Results.....</b>	<b>21</b>
3.1 <i>Corynebacterium glutamicum</i> harbours a molybdenum cofactor- dependent formate dehydrogenase which alleviates growth inhibition in the presence of formate.....	23
3.2 C <sub>1</sub> metabolism in <i>Corynebacterium glutamicum</i> : an endogenous pathway for oxidation of methanol to carbon dioxide.....	35
3.3 Metabolic engineering of <i>Corynebacterium glutamicum</i> for the metabolization of methanol .....	45
<b>4 Discussion.....</b>	<b>63</b>
4.1 Identification and characterization of the endogenous pathway for oxidation of methanol to CO <sub>2</sub> .....	65
4.1.1 Oxidation of methanol by <i>C. glutamicum</i> wild type.....	65
4.1.2 Oxidation of formaldehyde by <i>C. glutamicum</i> wild type.....	67
4.1.3 Oxidation of formate by <i>C. glutamicum</i> wild type.....	69
4.2 Engineering of <i>C. glutamicum</i> towards methanol utilization.....	71
4.2.1 Engineering of <i>C. glutamicum</i> towards an increased methanol oxidation rate.....	72
4.2.2 Engineering of <i>C. glutamicum</i> wild type towards assimilation of formaldehyde.....	73

4.2.3 Impact of the absence of the dissimilatory pathway for formaldehyde oxidation on the assimilation of methanol-derived carbon.....	76
4.3 Conclusion and Perspective.....	77
<b>5 References.....</b>	<b>79</b>
<b>6 Appendix.....</b>	<b>89</b>
6.1 Supplementary material to “Formate dehydrogenase from <i>Corynebacterium glutamicum</i> .....	89
6.2 Supplementary material to “Endogenous methanol oxidation in <i>Corynebacterium glutamicum</i> .....	96
6.3 Supplementary material to “Engineering of <i>Corynebacterium glutamicum</i> towards methanol utilization.....	107
6.4 Supplementary references.....	113
