Carbonyl Sulfide in the Stratosphere: airborne instrument development and satellite based data analysis

Corinna Kloss

Schriften des Forschungszentrums Jülich
Reihe Energie & Umwelt / Energy & Environment

Band / Volume 399

ISSN 1866-1793

ISBN 978-3-95806-276-4

Contents

1	Introduction	1
1.1	The upper troposphere and stratosphere	1
1.2	Stratospheric aerosol and OCS	2
1.2.1	Transport of sulfur compounds into the stratosphere	3
1.2.2	Role, mixing ratio and budget of Carbonyl Sulfide	5
1.2.3	OCS trends and seasonality	8
1.3	OCS observations	8
1.3.1	Remote sensing	9
1.3.2	In-situ observations	9
1.3.3	Motivation for the Airborne Mid-Infrared Cavity enhanced Absorption spectrometer (AMICA)	10
1.3.4	M55 Geophysica observations during StratoClim	11
2	Stratospheric OCS with ACE-FTS	13
2.1	ACE-FTS OCS data product	13
2.2	ACE-FTS satellite sampling bias correction	14
2.2.1	Motivation	14
2.2.2	Bodeker Scientific Regression Model (BSRM)	16
2.2.3	The BSRM performance with the OCS ACE-FTS data set	17
2.2.4	Sampling bias correction procedure	21
2.2.5	Evaluation of the correction procedure	24
2.2.6	Comparison with MIPAS	25
2.3	OCS burden	28
2.3.1	Seasonal and zonal variations	28
2.3.2	Tropopause effects	32
2.3.3	Stratospheric global OCS burden	34
2.4	Asian monsoon	36

3	AMICA development	41
3.1	Infrared spectroscopy	41
3.2	The ICOS method	44
3.3	Requirements for OCS measurements	48
3.3.1	MICA	48
3.3.2	Material criteria	48
3.3.3	Calibration system for OCS	49
3.3.4	OCS calibration and comparison with Mainz LGR	51
3.4	Mechanical requirements for AMICA on the research aircraft Geophysica	53
3.5	Mechanical design of AMICA	54
3.6	Laboratory performance assessment	59
3.6.1	Flow system assessment	59
3.6.2	Test enclosure	60
3.6.3	Flight simulation experiment with AMICA	64
3.7	AMICA performance	67
3.7.1	Performance of AMICA during first measurement flights	67
3.7.2	OCS calibration	69
4	AMICA results	71
4.1	Measurements	71
4.2	OCS and CO in the UTLS and stratosphere	73
4.3	Asian monsoon influence	76
4.4	A first AMICA and ACE-FTS comparison	76
5	Conclusions and outlook	81
	Bibliography	1
