Contents

List of Figures	iii
List of Tables	vii
List of Acronyms	x
Abstract	1
Zusammenfassung.....	3
Chapter 1 : Introduction	5
Chapter 2 : Theory	10
2.1 Integrated terrestrial systems model TerrSysMP	10
2.1.1 ParFlow	11
2.1.2 Community Land Model (CLM), version 3.5.....	12
2.2 Data assimilation	14
2.2.1 Posterior inference using Bayes Law	15
2.2.2 Ensemble Kalman Filter (EnKF)	15
2.2.3 Particle Filter (PF).....	18
2.2.4 TerrSysMP-PDAF.....	20
Chapter 3 : State and parameter estimation of two land surface models using the Ensemble Kalman Filter and the Particle Filter.....	21
3.1 Introduction and scope	21
3.2 Land surface models and calibration parameters	24
3.2.1 The Variable Infiltration Capacity Model (VIC).....	25
3.2.2 The Community Land Model (CLM).....	26
3.2.3 Main differences of VIC and CLM	27
3.2.4 Selection of calibration parameters	28
3.3 Data assimilation methods	29
3.3.1 EnKF and PF	29
3.1.2 Important differences of EnKF and PF.....	32
3.4 Case study	33
3.4.1 The Rollesbroich experimental site	33
3.4.2 Numerical experiments.....	35
3.4.3 Summary statistics.....	38
3.5 Results	39

3.5.1 VIC	39
3.5.2 CLM.....	50
3.6 Discussion	55
3.7 Conclusions	58
Appendix 3.A Parametrization of the VIC model.....	59
Appendix 3.B Parametrization of the CLM model	61
Chapter 4 : Comparison of different assimilation methodologies of groundwater levels to improve predictions of root zone soil moisture with an integrated terrestrial system model ..	64
4.1 Introduction	64
4.2 Materials and methods	66
4.2.1 Terrestrial System Modelling Platform (TerrSysMP)	67
4.2.2 Data assimilation methodologies.....	68
4.3 Experiment setup.....	71
4.3.1 Reference model	72
4.3.2 Setup of data assimilation experiments	74
4.4 Results	74
4.4.1 Assimilation of groundwater levels	75
4.4.2 Joint assimilation of groundwater levels and surface soil moisture	83
4.5 Discussion	86
4.6 Conclusions	88
Chapter 5 : Under which conditions can assimilation of groundwater level data improve root zone soil moisture characterization?	90
5.1 Introduction	90
5.2 Methodology	91
5.2.1 TerrSysMP.....	91
5.2.2 Assimilation of GWLs with EnKF	92
5.3 Experiment Setup	93
5.4 Results and Discussions	96
5.5 Conclusions	104
Chapter 6 : Summary and outlook	105
Bibliography	110
Acknowledgements.....	125
