ISBN 978-3-95806-445-4

<b>1</b>	<b>Abstracts</b>	<b>1</b>
1.1	Summary	1
1.2	Zusammenfassung	2
<b>2</b>	<b>Scientific context and key results of this thesis</b>	<b>3</b>
<b>2.1</b>	<b>Bacteriophages</b>	<b>3</b>
2.1.1	Bacteriophages and phage life styles	3
2.1.2	Lysogeny: integrating horizontally acquired DNA into the host chromosome	5
2.1.3	SOS-dependent induction of prophages: the lytic-lysogenic switch	5
2.1.4	Lysogenic conversion	7
2.1.5	Domestication of prophage elements: minimizing risks, keeping advantages	9
2.1.6	The cryptic prophages of <i>Corynebacterium glutamicum</i>	11
<b>2.2</b>	<b>Xenogeneic Silencing</b>	<b>13</b>
2.2.1	Phage defense systems and the importance of xenogeneic silencing	13
2.2.2	How does xenogeneic silencing work?	14
2.2.2.1	The four known XS classes are based on the same mechanism of action	14
2.2.2.2	Recognition of foreign DNA and formation of nucleoproteins complexes	15
2.2.2.3	Nucleoprotein complex formation leads to DNA structuring and silencing	18
2.2.2.4	Accessory proteins involved in xenogeneic silencing	21
2.2.3	XS proteins display auto-regulatory properties	22
2.2.4	Physiological impact of different binding regions of XSs	24
2.2.5	Role of XS in the regulation of prophage life cycles	26
2.2.6	Counter-Silencing	32
<b>2.3</b>	<b>Regulatory interactions between prophages and their hosts</b>	<b>34</b>
2.3.1	The prophage encoded XS CgpS binds multiple targets in the host genome	34

## Table of Contents

---

2.3.2	Interactions of XS proteins and the bacterial origin of replication .....	36
2.3.3	Identification of host regulators involved in prophage regulation .....	38
2.3.4	The MarR-type regulator MalR binds to the CGP3 prophage in <i>C. glutamicum</i> ....	39
2.3.5	Regulation of horizontally acquired genes by MarR-type regulators .....	39
<b>2.4</b>	<b>Conclusion and future perspectives .....</b>	<b>44</b>
<b>2.5</b>	<b>References .....</b>	<b>47</b>
<b>3</b>	<b>Publications and Manuscripts .....</b>	<b>67</b>
3.1	Silencing of cryptic prophages in <i>Corynebacterium glutamicum</i> .....	68
3.2	Impact of Xenogeneic Silencing on Phage-Host Interactions.....	84
3.3	Spatiotemporal binding dynamics of the xenogeneic silencer CgpS during prophage induction in <i>Corynebacterium glutamicum</i> .....	99
3.4	The MarR-Type Regulator MalR Is Involved in Stress-Responsive Cell Envelope Remodeling in <i>Corynebacterium glutamicum</i> .....	129
3.5	Identification of regulatory interactions between host proteins and the CGP3 prophage in <i>Corynebacterium glutamicum</i> .....	145
<b>4</b>	<b>Appendix .....</b>	<b>159</b>
4.1	Supplementary Information “Silencing of cryptic prophages in <i>Corynebacterium glutamicum</i> ” .....	159
4.2	Supplementary Information “Impact of Xenogeneic Silencing on Phage-Host Interactions” .....	179
4.3	Supplementary Information “Spatiotemporal binding dynamics of the xenogeneic silencer CgpS during prophage induction in <i>Corynebacterium glutamicum</i> ” .....	180
4.4	Supplementary Information “The MarR-Type Regulator MalR Is Involved in Stress-Responsive Cell Envelope Remodeling in <i>Corynebacterium glutamicum</i> ” .....	191
	<b>Acknowledgement .....</b>	<b>207</b>
