Abstract	I
Zusammenfassung	II
Content	III
List of figures	VI
List of tables	IX
List of abbreviations	X
I GENERAL INTRODUCTION	1
1. RATIONAL	2
2. STATE OF THE ART	3
2.1 Iron in arable soil	3
2.2 Iron uptake by plant	5
2.3 Fe translocation in plant	9
2.4 Iron isotopes	11
2.5 Iron isotope fractionation in soil-plant system	14
3. OBJECTIVES	15
II IRON ISOTOPE FRACTIONATION IN PLANTS.....	17
1. Introduction.....	18
2. Iron isotopic fractionation in plants	18
2.1 Iron isotope fractionation during root uptake	18
2.2 Iron isotope fractionation during translocation	20
2.3 Fe isotope composition in different plant tissues.....	23
III IRON ISOTOPE FRACTIONATION DURING WHEAT GROWTH UNDER DIFFERENT FE SUPPLY	25
1. Introduction.....	26
2. Material and methods.....	28
2.1 Plant material and growth conditions	28
2.2 Plant sample digestion, Fe purification and isotope measurements	29
2.3 Statistical analyses	31
3. Results.....	31
3.1 Plant dry biomass and Fe concentrations under different Fe supply	31

CONTENT

3.2	Iron isotope composition in wheat.....	34
4.	Discussion.....	38
4.1	Effects of Fe-deficiency on wheat growth.....	38
4.2	Fe isotope fractionation during vegetative growth.....	41
4.3	Fe isotope fractionation during reproductive growth.....	43
IV	IRRIGATION EFFECTS ON IRON ISOTOPE FRACTIONATION AND MOBILIZATION IN LONG-TERM AGRICULTURAL RESEARCH TRIAL (THYROW, GERMANY).....	47
1.	Introduction.....	48
2.	Material and Methods.....	50
2.1	Field site.....	50
2.2	Soil and plant sampling.....	51
2.3	Sample digestion and Fe concentration determination.....	52
2.4	Extraction of plant-available Fe.....	52
2.5	Fe purification.....	52
2.6	Fe isotope composition measurements.....	53
2.7	Statistical analyses.....	55
3.	Results and Discussions.....	55
3.1	Fe concentrations and stocks in the bulk soil.....	55
3.2	Fe isotope compositions in the bulk soil.....	60
3.3	Fe concentrations in the soil-plant system.....	61
3.4	Fe isotope compositions in the soil-plant system.....	66
V	FINAL DISCUSSION.....	71
1.	SUMMARY OF THE RESEARCH OBJECTIVES.....	72
2.	SYNTHESIS AND OUTLOOK.....	75
2.1	Utilization of Fe resources from the soil.....	75
2.2	Fe mobilization in the soil-plant system.....	78
2.3	Extended analyses of $\delta^{56}\text{Fe}$ values analysis across soil-plant ecosystems.....	80
3.	CONCLUSIONS.....	87
VI	REFERENCES.....	88
VII	APPENDIX A.....	100
VIII	APPENDIX B.....	105
