Content

Summary.....	I
Zusammenfassung	II
Acknowledgements	III
Content	IV
List of figures	VII
List of tables	X
List of abbreviations	XI
Chapter 1 General introduction.....	1
1. Rationale.....	2
2. Background	3
2.1 Uranium in phosphate rocks and P fertilizers	3
2.2 Uranium accumulation in agricultural soils by P fertilization	8
2.3 Behavior of uranium in soil	9
2.4 Isotopes signature of phosphate rocks	12
3. Objectives	14
Chapter 2 Non-critical uranium accumulation in soils of German and Danish long-term fertilizer experiments	17
1. Introduction	18
2. Materials and Methods	19
2.1 Description of study sites.....	19
2.2 Sample preparation and element analysis.....	21
3. Results	23
3.1 Uranium concentrations in soil	23
3.2 The relationship between P and U.....	26
4. Discussion.....	27
4.1 Methods to extract soil uranium.....	27
4.2 Uranium accrual in agricultural soil by P fertilizer application	29
4.3 Other sources of uranium to agricultural soils	31

CONTENT

5. Conclusions	32
 Chapter 3 Critical accumulation of fertilizer-derived uranium in Icelandic grassland Andosol	35
1. Introduction	36
2. Materials and methods	37
2.1 Studied sites and soil sampling	37
2.2 Analytical method	38
3. Results	39
4. Discussion.....	42
5. Conclusions	45
 Chapter 4 ‘Co-evolution’ of uranium concentration and oxygen stable isotope in phosphate rocks.....	47
1. Introduction	48
2. Materials and Methods	49
3. Results and Discussion.....	51
3.1 Spatial and temporal distributions of uranium concentrations in phosphate rocks.....	51
3.2 Mechanisms of various deposition of U in phosphate rocks	53
3.3 Oxygen isotope signature in phosphate deposits	58
3.4. Relationship between the U/P ₂ O ₅ and δ ¹⁸ O _p in phosphate rocks	63
4. Conclusion.....	64
 Chapter 5 Final discussion	67
1 Summary of the research objectives.....	68
2. Synthesis	70
2.1 Uranium accumulation in agricultural soil	70
2.2 Estimates of the amounts of fertilizer-derived U in agricultural soils of the European Union countries	75
3. Conclusion	76
 Appendix A.....	79

CONTENT

Appendix B.....	87
Appendix C.....	106
1. Introduction	107
2. Materials and methods	107
3.1 Uranium concentrations in soil	108
3.2 The correlation of P and U.....	112
4. Discussion.....	112
4.1 Enrichment of U in Rothamsted experiments	112
4.2 The long term Rothamsted experience.....	113
5. Conclusions	114
Appendix D.....	115
References	119
