CONTENT

Abstract	I
Zusammenfassung.....	V
List of figures	XI
List of tables.....	XVI
List of acronyms.....	XVII
List of symbols.....	XVIII
Chapter 1 General introduction	1
1.1 Research background	1
1.2 SWC determination with point sensors.....	3
1.3 SWC determination with geophysical methods	4
1.4 SWC determination with GPR.....	5
1.4.1 SWC determination with surface GPR.....	5
1.4.2 SWC determination with off-ground GPR.....	8
1.4.3 SWC determination with borehole GPR	8
1.5 Hydrological model parameterization.....	10
1.5.1 Unsaturated water flow in porous media.....	10
1.5.2 Inversion strategies for combining hydrological models and geophysical data	11
1.6 Objectives and outline	13
Chapter 2 Measuring vertical soil water content profiles by combining horizontal borehole and dispersive surface ground penetrating radar data	15
Abstract	15
2.1 Introduction	16
2.2 Method and material.....	18
2.2.1 Infiltration experiment	18
2.2.2 Horizontal borehole GPR data acquisition and processing	21
2.2.3 Surface GPR data acquisition and processing.....	23
2.2.4 Determination of soil water content and storage.....	25
2.3 Results and discussion.....	26
2.3.1 Horizontal borehole GPR data	26
2.3.2 Semblance analysis of surface GPR data.....	28
2.3.3 Dispersion analysis of surface GPR data	29
2.3.4 Combined horizontal borehole and surface GPR data	32
2.4 Summary and conclusions.....	37

Chapter 3 Sequential and coupled inversion of horizontal borehole ground penetrating radar data to estimate soil hydraulic properties at the field scale.....	39
Abstract	39
3.1 Introduction	40
3.2 Method and material.....	43
3.2.1 Test site and GPR data acquisition.....	43
3.2.2 Hydrological modelling	45
3.2.3 GPR modelling.....	45
3.2.4 Set-up for sequential and coupled inversion	46
3.2.5 Set-up for synthetic infiltration experiments.....	47
3.2.6 Uncertainty analysis	50
3.3 Results and discussion.....	52
3.3.1 Synthetic infiltration experiments	52
3.3.2 Inversion of experimental GPR data	61
3.4 Summary and conclusions.....	66
Chapter 4 Coupled full waveform inversion of horizontal borehole ground penetrating radar data to estimate soil hydraulic parameters: a synthetic study	69
4.1 Introduction	69
4.2 Method and material	71
4.2.1 Set-up of the coupled full waveform inversion.....	71
4.2.2 Set-up for synthetic infiltration experiment	72
4.3 Results.....	78
4.3.1 Response surfaces	78
4.3.2 Coupled full waveform inversion.....	83
4.4 Discussion	87
4.5 Conclusions.....	88
Chapter 5 Synthesis and outlook.....	91
5.1 Synthesis	91
5.2 Outlook.....	95
Acknowledgements	99
Bibliography.....	101
Publication list.....	121
