OVERVIEW

EMB206, EMB209, EMB213, EMB218, EMB224	19
The hydrographic-hydrochemical and biological state of the Baltic Sea in 2019 and the variability and ecosystem changes on long time scales	

ABSTRACTS

AL521 AND AL522	27
Baltic Sea Integrative Long-term Data Series	
AL532.....	31
Monitoring and Mapping Deformation Offshore Mount Etna	
HE538	35
Dynamics of benthic communities in protected areas of the German North Sea	
M111	39
Dionysus – deep structure of the Ionian Sea and Sicily	
M145.....	45
Oxygen and circulation variability in the central and western tropical Atlantic	
M146	49
Henry Seamount Seepage Exploration	
M147	53
Amazon-GEOTRACES – Interactions of trace metals, DOM, and particles in the Amazon estuary and associated plume	
M148.....	59
Eastern boundary circulation and upwelling off Angola, tropical Atlantic overturning circulation	

M148/2	65
EreBUS – Processes Controlling Greenhouse Gas Emissions from the Benguela Upwelling System	
M149	71
Recurrence of tsunamigenic hazards from MeBo drilling records and fluid/solid transfer in the Gulf of Cadiz accretionary prism	
M150	75
Controls in benthic and pelagic BIODiversity of the Azores –BIODIAZ	
M152/1	83
Tracing the unknown: offshore tsunami deposits	
M152/2	89
Structural evolution and disintegration of oceanic intraplate volcanoes: The Bathymetrists Seamount Province and its relation to Sierra Leona Rise (eastern equatorial Atlantic)	
M153	95
Trophic Transfer Efficiency in the Benguela Current TRAFFIC	
M154	97
Investigation of sector collapse deposits in the Bouillante-Montserrat Graben – Sector collapse kinematics and tsunami implications	
M155	103
The tsunamigenic gravitational flank collapse of Fogo volcano, Cape Verde Islands and MSM87 – Seismic pre-site survey for an IODP site on the Cape Verde Plateau	
M156	109
Role of Eddies in the Carbon Pump of Eastern Boundary Upwelling Systems (MOSES Eddy Study I)	
M157	115
First, preliminary results from the coastal Benguela System	
M158	121
Trans-Atlantic Equatorial cruise I	
M159	125
Circulation off Brazil	

M160	129
Role of Eddies in the Carbon Pump of Eastern Boundary Upwelling Systems (MOSES/ REEBUS Eddy Study II)	
M161	135
Contributions to EUREC4A	
MSM44 AND MSM66	141
Reconstruction of past ice sheet dynamics, palaeoceanography and plankton ecology in the Baffin Bay	
MSM51 AND MSM62	147
Baltic Sea Littorina Stage and Deep Ventilation – LISA I & II	
MSM70	151
Detailed Mapping and Sampling of the Bathymetristic Seamounts and Adjacent Fracture Zones	
MSM71	155
LOBSTER – Ligurian Ocean Bottom Seismology and Tectonics Research	
MSM72	161
Variability and Trends in Physical and Biogeochemical Parameters of the Mediterranean Sea	
MSM73 AND MSM83	165
Sustained observations of the Atlantic Meridional Overturning Circulation at 47°N	
MSM74	169
Western Subpolar North Atlantic Variability	
MSM76	173
Nordic Seas Exchanges	
MSM78	179
Strategies for Environmental Monitoring of Marine Carbon Capture and Storage – PERMO2	
MSM79	183
Preliminary results: Marine carbon production, export, relocation and degradation off NW Africa and Carbon release from thawing permafrost of the European tundra	

MSM79/2, SO267/2, MSM82/2, SO268/3	187
References	
MSM80	195
Coastal Upwelling System in a Changing Ocean (CUSCO)	
MSM82	199
Rio Grande Rise	
MSM82/2	203
Morphology of the headwall area of the Sahara slide (NW-Africa); Measuring Over Ocean References; Mapping sequences to protists morphospecies from the Atlantic	
MSM84	209
Holocene and deglacial history of the Labrador Shelf and Lake Melville	
MSM85	213
Submarine meltwater around Greenland	
MSM86	217
Results from MSM86 to the Vesteris Seamount	
MSM88	221
A seafloor mapping campaign to fill the gaps in the grid	
MSM89	225
The ocean mesoscale component in the EUREC4A++ field study	
POS530	231
First scientific survey of munition dump sites in the German Baltic Sea (2018) during MineMoni I	
POS531	235
Benthic-pelagic coupling in sandy sediment regions and its interactions with the biological carbon in the open ocean	
POS532	241
Coastal deep-sea biodiversity, ecological interactions, carbon flux and oceanography of Cabo Verde	

POS533	247
Natural and anthropogenic sources of marine trace gases in the oceanographic and biogeochemical regime of the Subtropical North East Atlantic POS533-AIMAC – Atmosphere-Ocean-Islands-Biogeochemical interactions in the Macaronesian Archipelagos of Cabo Verde, the Canaries and Madeira	
POS534	253
Monitoring gas discharge from the seafloor in the North Sea	
POS535 AND POS524	259
Geoscientific Investigations of Hydrothermal Sites along the Arctic Mid-Oceanic Ridge during Cruises POS535 (Loki2GrimseyEM) and POS524 (GrimseyEM)	
POS536	263
Abundance, composition and distribution of microplastics in the North Atlantic Garbage Patch	
POS537	267
Biofilm-like habitat at the sea-surface: A mesocosm study during POS537	
POS538	273
High-resolution 2D and 3D reflection seismic analysis of tsunamigenic eruptions in the Christiana-Santorini-Kolumbo Volcanic Field, Southern Aegean Sea (Greece)	
POS539	277
Microbial processes involved in the N- and C-cycles in the western basin of the Black Sea (MicroliNC)	
SO263	281
TongaRift Volcanism, hydrothermal activity and vent biology	
SO265	287
Papanin Ridge and Ojin Rise Seamounts (Northwest Pacific): Dual Hotspot Tracks formed by the Shatsky Mantle Plume	
SO266/1	293
Methane hydrate deposits offshore Taiwan – Results from MeBo cores drilled during the R/V SONNE cruise	
SO267	297
ARCHIMEDES – Integrated Geodynamic, Magmatic and Hydrothermal Studies of the Fonualei Rift System, NE Lau Basin	

SO267/2	303
On the road across the Pacific with underway measurements	
SO268	309
Nodule Monitoring – Assessing the impacts of nodule mining on the deep-sea environment	
SO268/3	313
MICRO-FATE – Characterizing the Fate and Effects of Microplastic Particles between Hotspots and Remote Regions in the Pacific Ocean	
SO269	319
South China Sea-natural laboratory under climatic and human induced stress	
SO270	325
The demise of a tropical reef system (Saya de Malha Bank, Indian Ocean)	

POSTER

M147	335
Geochemical behaviour of neodymium and hafnium isotopes in the Amazon estuary: Tracing the river plume and quantifying continental inputs	
M147	341
Distribution and Flux of Trace Metals (Al, Mn, Fe, Co, Ni, Cu, Zn, Cd, Pb and U) in the Amazon and Pará River Estuary and Mixing Plume	
M148 (M98/M120/M131/M158)	345
Seasonal mixed layer heat budget in coastal waters off Angola	
M150	351
Morphospecies and genetic diversity of Bryozoa collected during M150 BIODIAZ in the remote Azores Archipelago	
M150	355
BIODIAZ – Vertical distribution of heterotrophic protists from Atlantic sublittoral to deep-sea sediments	

M150	363
Preliminary insights into the gastrotrich community of sublittoral sediments of the Azores Archipelago (Portugal) obtained during METEOR cruise M150 Controls in benthic and pelagic BIODiversity of the Azores BIODIAZ	
M150	365
BIODIAZ: Calcareous nanophytoplankton distribution around the Azores Archipelago (Central North Atlantic)	
M150	371
BIODIAZ – Controls in sedimentary facies and related carbonate factories of volcanic islands, seamounts and shallow water platforms around the Azores	
MPI-MET/NASA COLLABORATIONS	375
MSM71	379
LOBSTER: Basin opening and inversion insights from seismic data in the Ligurian Sea	
MSM71	385
Lobster – First results of 3D travel time tomography of the Ligurian Sea and Coastal Western Alps using data from Cruise	
MSM71	389
LOBSTER: 3D Crustal Structure of the Ligurian Sea Revealed by Surface Wave Tomography using Ocean Bottom Seismometer Data	
MSM79	393
18 years of dinoflagellate cyst export flux and benthic foraminifera deposition recovered from a sediment trap in the upwelling region off Cape Blanc (NW Africa)	
MSM79	395
Export flux succession of dinoflagellate cysts and planktonic foraminifera in an active upwelling cell off Cape Blanc (NW Africa) in November 2018	
MSM79	397
Better molecular preservation of organic matter in an oxic than in a sulphidic depositional environment: evidence from from modern and fossil dinoflagellate cysts	
MSM82	399
The complex volcanic evolution of the Rio Grande Rise, SW Atlantic	

MSM82/2	403
Protistan diversity along a transect across the South and North Atlantic Ocean exemplified by choanoflagellates	
MSM89	409
Atmospheric Turbulence and Clouds in the Tropics: Shipborne Lidar Measurements of Dynamics and Thermodynamics During EUREC4A	
POS539	413
Nitrous oxide cycling under low oxygen concentrations in the water column of the Western Black Sea	
SO259/3	417
CAROL – Collecting Atmospheric Reference Data Over Oceans	
SO263	419
Chemical and isotopic variations in hydrothermal sulfides from Niuatahi caldera, Tonga rear-arc	
SO263	423
Hydrothermal vent fluids and sulphides from Maka volcano, North Eastern Lau Spreading Centre	
SO263	431
Geochemical investigation of hydrothermal fluids from Niuatahi rear-arc volcano, North East Lau Basin, SW Pacific	
SO263	437
Volcanic geomorphology, tectonics and geochemical character of the submarine rear-arc caldera Niuatahi in the SW Pacific, examined through ROV-dives and TVG sampling during cruise	
SO267	441
Investigating the crustal structure and tectonic evolution of the northern Lau Basin with reflection and refraction seismic and magnetic data acquired during SO267 – ARCHIMEDES I	
SO267	445
ARCHIMEDES: A multi-methodical approach to decipher the extensional dynamics of the northern Lau Basin at 16°S	

SO267	449
Relationship between saucer-shaped igneous sills and sedimentary layers: an example from the Tofua volcanic arc	
SO268/3	453
Plastic-associated chemicals – are plastics a sink or source of organic chemicals to the North Pacific Ocean?	
SO268/3	457
On-board systematic polymer weathering in mesocosms	
SO268/3	461
Quantification of microplastic particles in surface water collected during SO268/3 between Vancouver and Singapore	
SO268/3	463
The role of the ‘plastisphere’ in the North Pacific Ocean Gyre	
SO271/1	467
Exploring the Indian Ocean: results from cruise SO271/1	
SO271/2	471
Exploring the Indian Ocean: results from cruise SO271/2
