# Content

<b>Content</b>	<b>I</b>
<b>Summary</b>	<b>III</b>
<b>Zusammenfassung</b>	<b>IV</b>
<b>Abbreviations</b>	<b>VI</b>
<b>1. Introduction</b>	<b>1</b>
1.1. The actinobacterium <i>Corynebacterium glutamicum</i>	1
1.2. Unique features of the corynebacterial hybrid PDH-ODH complex	2
1.3. Phosphorylation-based signal transduction in bacteria	5
1.4. Control of the 2-oxoglutarate metabolic branch point in <i>C. glutamicum</i>	7
1.5. Regulation of PknG activity	11
1.6. Aim of this work	13
<b>2. Results</b>	<b>15</b>
2.1 Characteristics of the GlnH and GlnX signal transduction proteins controlling PknG-mediated phosphorylation of OdhI and 2-oxoglutarate dehydrogenase activity in <i>Corynebacterium glutamicum</i>	15
2.2 Polar localization of regulatory proteins and TCA cycle components in an actinobacterium	48
<b>3. Discussion</b>	<b>75</b>
3.1 GlnH, GlnX, and PknG are part of the same signal transduction cascade	75
3.2 The lipoprotein GlnH senses extracellular L-aspartate and L-glutamate	77
3.3 Characteristics of GlnX enabling signal transduction	79
3.4 Intracellular localization of OdhI	81
3.5 Polar localization of the hybrid PDH-ODH complex in <i>C. glutamicum</i>	83
3.6 Composition of the hybrid PDH-ODH complex	87
3.7 Overview on the post-translational regulation of the 2-oxoglutarate metabolic branch point in <i>C. glutamicum</i>	89
<b>4. References</b>	<b>92</b>
<b>5. Appendix</b>	<b>102</b>
5.1. Influence of N- and C-terminal tags on the functionality of GlnX	102
5.2. Purification of the periplasmic domains of GlnX	103
5.3. Purification of the of the hybrid PDH-ODH complex of <i>C. glutamicum</i>	105
5.4. Relevance of the N-terminal extension of OdhA <i>in vivo</i>	110
5.5. Material and methods of supplementary experiments	113

5.5.1 Bacterial strains and cultivation conditions _____	113
5.5.2 Standard recombinant DNA work and construction of deletion mutants _____	115
5.5.3 Protein production and purification _____	116
5.5.4 Enzyme activity assays _____	117
<i>Danksagung</i> _____	<i>118</i>
<i>Eidesstattliche Erklärung</i> _____	<i>119</i>
