# Contents

<b>Abstract</b> .....	<b>I</b>
<b>Acknowledgements</b> .....	<b>III</b>
<b>1. Introduction</b> .....	<b>7</b>
1.1 Biogenic volatile organic compounds (BVOCs) in the atmosphere .....	8
1.2 VOCs oxidation chemistry in the troposphere .....	11
1.3 Objectives of the thesis .....	20
<b>2. Atmospheric Simulation Chamber SAPHIR</b> .....	<b>23</b>
2.1 The atmospheric simulation chamber SAPHIR .....	23
2.2 Trace gas emissions from the chamber .....	24
2.3 The SAPHIR-PLUS Chamber .....	24
2.4 Instruments at the SAPHIR chamber.....	26
2.5 Monoterpene oxidation experiments in the SAPHIR chamber .....	31
2.6 Plant emissions oxidation experiments conducted with the SAPHIR-PLUS and the SAPHIR chamber.....	35
<b>3. Methods for analyzing SAPHIR experiments in the SAPHIR chamber</b> .....	<b>37</b>
3.1 Determination of the reaction rate coefficients of the oxidation of monoterpenes ....	37
3.2 Calculation of product yields.....	40
3.3 Model calculations .....	45
3.4 Analysis of the chemical budget of radicals.....	49
<b>4. Investigation of the oxidation mechanism of limonene by OH radicals and O<sub>3</sub> in simulation chamber experiments</b> .....	<b>53</b>
4.1 Oxidation mechanisms of limonene .....	53

4.2	Overviews of limonene oxidation experiments .....	58
4.3	Results .....	66
4.4	Discussions .....	87
<b>5.</b>	<b>Investigation of the oxidation mechanism of sabinene by OH radicals and O<sub>3</sub> in simulation chamber experiments .....</b>	<b>91</b>
5.1	Proposed mechanism of the oxidation of sabinene .....	91
5.2	Overview of sabinene oxidation experiments .....	94
5.3	Results of the analysis of sabinene oxidation experiments.....	102
<b>6.</b>	<b>Investigation of the oxidation of biogenic organic compounds from real plant emission .....</b>	<b>113</b>
6.1	Emission of organic compounds from sweet chestnut ( <i>Castanea sativa</i> ).....	113
6.2	Oxidation of the BVOCs emitted by sweet chestnut trees .....	117
6.3	Discussion of the experiments with real plant emissions.....	122
<b>7.</b>	<b>Summary and Conclusions .....</b>	<b>127</b>
7.1	Oxidation of limonene.....	127
7.2	Oxidation of sabinene .....	129
7.3	Plant emissions and the investigation of their oxidation .....	130
7.4	Outlook.....	131
	<b>References.....</b>	<b>133</b>
	<b>Supplementary material for Section 4 .....</b>	<b>149</b>
	<b>Supplementary material for Section 6 .....</b>	<b>154</b>
