Table of Contents

Abstract	i
Zusammenfassung.....	ii
Acknowledge	vi
List of Abbreviations.....	viii
List of Figures.....	ix
<i>List of Tables</i>	xi
1 Introduction.....	1
1.1 Outline	1
1.2 Structure of the Thesis	3
2 Theoretical Background.....	4
2.1 Pedestrian Level of Service (PLOS)	4
2.2 Crowding Research	6
2.2.1 Density	7
2.2.2 Personal space	8
2.2.3 Theories on the emergence of crowding stress	9
2.3 Stress Models	11
2.3.1 The biological stress model	13
2.3.2 The sociological stress model	13
2.3.3 The psychological stress model	13
2.4 Methods of Measuring Stress in Research	14
2.4.1 Subjective measures of stress: Self-reports	14
2.4.2 Objective measures of stress: Psychophysiological basis	16
2.5 Research Questions	20
3 Methodological Considerations for Collecting EDA Data	22
3.1 Basics of EDA Measurement.....	22
3.1.1 Phasic parameters	23
3.1.2 Tonic parameter	24

3.1.3	Extended EDA parameters	24
3.2	Data Quality	25
3.2.1	Artifact detection	25
3.2.2	Artifact correction	29
3.3	Calculation of Characteristic Values	30
3.3.1	Methods for separating the EDA signal	30
3.3.2	Standardization of data	34
3.3.3	The SCL Algorithm	35
3.3.4	Determination of SCRs	36
3.3.5	Algorithm for determining the parameter EDA Symp	37
3.4	Preprocessing the Data Collected in the Experiments	37
4	Empirical Framework	40
4.1	The CroMa Project	40
4.2	Experimental Designs	42
4.2.1	Research design: Studies on Waiting	43
4.2.2	Research design: Studies on Walking	43
4.2.3	Operationalization of the concepts of density and personal space	44
5	Studies on Waiting	47
5.1	Density: Study 1	47
5.1.1	Hypotheses	47
5.1.2	Materials and methods	48
5.1.3	Results	51
5.1.4	Discussion	55
5.2	Density: Study 2	59
5.2.1	Hypotheses	59
5.2.2	Materials and Methods	60
5.2.3	Results	64
5.2.4	Discussion	71

5.3	Conclusion: Studies 1 and 2.....	73
6	Studies on Walking.....	75
6.1	Walking Speed: Study 3.....	75
6.1.1	Hypotheses.....	75
6.1.2	Materials and Methods.....	76
6.1.3	Results.....	79
6.1.4	Discussion.....	83
6.2	Walking Speed and Density: Study 4.....	84
6.2.1	Hypothesis.....	84
6.2.2	Materials and Methods.....	85
6.2.3	Results.....	87
6.2.4	Discussion.....	90
6.3	Conclusion: Studies 3 and 4.....	91
7	Discussion.....	93
7.1	Waiting vs. Walking.....	93
7.2	Short vs. Long time spans in the Experimental Designs.....	95
7.3	EDA as a Measurement Method.....	97
7.3.1	Alternative to EDA: Heart rate variability.....	98
7.4	Conclusion and Outlook.....	99
8	References.....	101
9	Contributions.....	117
